RANKING FRAMEWORK

5. BEST PRACTICES, INNOVATION AND INSTITUTION DISTINCTIVENESS

5.2. Special Initiatives Taken for

5.2.1. Energy conservation/use of Solar energy

Response: Yes

Government Degree College Kaffota emphasizes sustainable practices and is committed to energy conservation. The institution actively promotes responsible energy usage among both students and staff. The key initiatives include:

i. Energy-Saving Awareness:

Students and staff are regularly encouraged to switch off electrical devices, such as lights and fans, upon leaving classrooms or offices. This collective effort reinforces a culture of energy consciousness and responsible behaviour.

ii. LED Lighting Implementation:

The college has replaced conventional lighting with energy-efficient LED lights across the campus. LED lighting significantly reduces electricity consumption while providing a bright and conducive learning environment.

iii. Future Considerations for Solar Energy:

Recognizing the importance of renewable energy, the institution is exploring options to harness solar energy. This shift toward sustainable energy sources aligns with the college's commitment to minimizing its carbon footprint and contributing to environmental preservation.

Through these measures, Government Degree College Kaffota demonstrates a proactive approach to energy conservation, fostering an environment where sustainable practices are both encouraged and implemented.
